Our Mission

Realising the potential for clinical research through Northern Ireland Primary Care.

Our Vision

To be a thriving research community that maximises participation in high-quality clinical research through Northern Ireland Primary Care—research that is relevant to patients and their families and of benefit to all.

Our Values
Inclusive
Open
Equitable
Collaborative
Community Focused
Person Centred

WHAT WE DO

- Engage with Industry and Academic stakeholders re: suitable studies
- Support local Primary Care staff to engage in research
- Undertake recruitment, patient consent, data collection, follow up
- Provide education and training
- Represent Primary Care Research in NI at local and national level

HOW WE CAN HELP YOU

- Practical support for practices at all levels of research experience
- Assistance at any stages of research journey
- Research Nurse Visits
- Practice Education
